Planning

T-Series provides a complete set of furniture for all types of medical related facilities, typically T-Series is installed in Pharmacies, Surgeries, Dental and Veterinary Practices. T-Series can also be combined with our other furniture ranges such as our highly popular [Y-Series High Capacity Pull-out Shelving](#).

FPD Group offer a full design service, alternatively we can offer guidance to the owner, architect or shop fitter on best practices and furniture that will best utilize your space or budget. When planning your project start by sketching out your floor plan, add dimensions and remember to note features such as windows and electrical power points. To best utilise your floor space and maximise the efficiency of your dispensary you must carefully plan out your process work flow and choose a system the best suits your requirements and budget. Visit www.pharmacy-design.co.uk for more information on design and process flow.

How to Buy

Working from the proposed design FPD Group will put together a quotation for your approval, to assist with your decision making we can also provide alternate quotations based on the supply of other furniture systems or combinations of various systems such as Z-Series pharmacy drawer systems and Y-Series pullout shelving.

On payment of your order (see [payment methods](#)), FPD Group will provide approximate delivery times, typically 3-4 weeks. You may wish to use local joiners/fitters for the installation alternatively FPD Group can provide an installation service.
